### TRIPLE ALLIANCE.

An Article Which is Attracting the Attention of all the Powers.

London, October 7th .- It is now univerally believed here that the article on the riple alliance and Italy's place in it, in the Contemporary Review, which has set all Europe talking, is by Gladstone. He himself says that the Daily News was not auth-orized to attribute the article to him, which is considered to be an admission that he is the author. The article was written in Paris, which gives another proof of the ex-traordinary activity of Gladstone's mind in that while he was doing the exposition, receiving callers and attending banquets, he yet found time to devote to a now historic article on the relations of England to the triple alliance. The Paris Temps points out a curious piece of internal evidence of the authorship in the nom de plume by which the article is signed. "Outidanos" is no doubt suggested by Outis in the "Odyssey." Outis, or nobody, phemus, whom he afterwards blinds

The Paris newspapers generally eulogize it. The Liberte discusses it at length and gives it warm praise. It thinks it out of the question for anyone but Mr. Gladstone to have written the article. In any case, it says, the tone and style and manner of dealing with the European chessboards are very statesmanlike. If Italy is treated with rough sincerity, it is also an object of warm

OUR esteemed contemporary, the San Francisco Alta, takes the RECORD-UNION'S pleasantry concerning the Democratic consternation over the ambition of Sullivan, sternation over the ambition of Sullivan, the bruiser, to sit in Congress, with unwarranted seriousness. It says that in fact Democratic indignation in the premises is more creditable than Republican satisfaction. We concede that much, we grant also that the Alta, the fairest of the Democratic press, "has never been disposed to indict the Republican party for the misdoings of certain of its members." But our contemporary feels warranted, since the contemporary feels warranted, since the RECORD-UNION has referred to the matter as an instance of Democratic employment of unscrupulous means to political ends, in citing the case of Stiles, a Republican who was elected to an important station in the new State of Washington while five indictments in the Territory of Arizona were hanging over him, the indictments being returned a few days after the nomination of Stiles. The Alta thinks that the Democratic party, though guilty of a good many shabby things, has never done anvthing so bad as the election to a judicial position of a man under indictment for a felony. While the presumption of innocence must attach until the party referred to is convicted, it must be conceded that it was bad in politics, and bad in government to take up a candidate against whom a Grand Jury had found true bills. But we submit, since the Alta challenges us to parallel the Stiles incident, that the action of the Democracy of Indiana goes it one better. serving a term in the State Prison at Serving a term in the State Prison at Military City Ludican State Prison at Military City Ludican State Prison at State Prison at Military City Ludican State Prison State Prison at Military City Ludican State Prison Stat It not only took up and nominated to an offore, that is this marshaling of demeritsand Heaven knows there are sufficient to be debited to both the great political bodies-our citation stands just one notch

GENERAL GRANT'S TOMB.

Colonel Fred. Grant has written a letter in which he sets forth what he believes to have been the wishes of General Grant relative to his burial-place. From this it appears that the General expressed himself as evenly divided in opinion between St. Louis, where he was married and where three of his children were born; Galena, from which place he was called to Grand, from which place he was called to Grand, when he was the constitution of the court by providing that "in the construction of statutes, the office of the Judge is simply to ascertain and declare what is in terms or in substance contained in the statutes, not to insert what has been omitted.

where three of his children were born; Galena, from which place he was called to take his place in the war of the rebellion, and New York, where he made his latest home and had been the recipient of much kindness. Colonel Grant replied to him suggesting that his national character had delocalized him and that Washington would be a specially appropriate place for his tomb. Thereupon General Grant recalled his first note of suggestion and wrote:

It is possible that my funeral may become one of public demonstration, in which event have no particular choice of burial-place; but there is one of thing which would wish you and the family to insist upon, and that is that, wherever my tomb may be, a place shall be reserved for your mother at my side.

He thus waived his former choice and left it to the nation to decide where his remains should repose. Colonel Grant took this view of it also, but adds that on the stitutes a fent of the content of

this view of it also, but adds that on the death of the General all offers of burial sites were considered, and New York's "Riverside" plat was agreed upon. But adds Colonel Grant:

However, it does not require the concurren of all the Grand Jurors to find either a present-ment or indictment. Section 931 of the Penal Code provides that "a presentment cannot be found without the concurrence of at least twelve Grand Jurors," and Section 940 provides that "an indictment cannot be found without the concurrence of at least twelve Grand Jurors."

From these sections the implication is that a presentment or an indictment may be found by the concurrence of twelve Grand Jurors; but there is nothing in the concurrence of twelve Grand Jurors; but

Gentlemen, there is another point which the serious, and possibly fatal. he State requires the Court to cause to be drawn and summoned a Grand Jury at least once a year. This is the language of the Constitution: "A Grand Jury shall be drawn and summoned at least once a year in each county.' The term "year," as used in this provision in the Constitution, means the calendar year, and it would seem that it precludes a Grand Jury drawn and summoned for one year from continuing its exseem that it precludes a Grand Jury drawn and summoned for one year from continuing its existence into another. If it continued its existence from one year into another, at what time would it be dissolved by operation of law? If it continued into the second year why not continue to the last day of the year and preclude the Court from causing a Grand Jury for that year to be drawn and summoned?

KNIGHTS TEMPLAR.

The Golden Gate Commandery Arrives Safely at Washington. WASHINGTON, October 7th .- The Northwestern States have sent a fine representa-tive body of men here. Dakota makes a good impression with five Commanderies, viz.: Cyrene, of Sioux Falls; Fargo, No. 5; Grand Forks, No. 8; Jamestown, No. 12, and Damascus, of Aberden.

of the Grand Commandery, the recent severe fires in that State compelling Sir Knights there to remain at home. Montana sends Commanderies from Helena and Butte City. Damascus of St. Paul, and Zeiron of Minneapolis, are representative Minnesota organizations.

Washington sends only eleven members

Wyoming has only one Commandery, that from Cheyenne.

Tennessee, Georgia and Virginia are the only Southern States which sent a good representation to the Conclave.

The banner States in the number of Knights and Commanderies here are Illi-nois, Indiana, Ohio, Pennsylvania, New York and Massachusetts. Cincinnati and erusalem Commanderies of Cincinnati have a monster petition to the Grand En campment from the Cincinnati Chamber of Commerce, and another signed by the eading business men and manfacturers of

be held there. It is asserted by the Queen City's friends that Cincinnati's chances for securing the next triennial lead all others. Denver is second in the race they say. Golden Gate Commandery of California arrived at 3 o'clock this morning, hot boxes on the commissary being the cause of its late arrival. It marched directly to the "Normandy," which was profusely deco-

incinnati, asking that the next Conclave

rated in its honor. To-day the California members having recovered from the fatigue of their long ourney, were busily engaged in viewing the sights of the Capital City. The pet of

of a maltese cross, made entirely of im-

mortelles, was presented to Lieutenant R. W. Patterson, U.S. A., stationed at the Presidio, San Francisco. The Golden Gate Commandery is the talk of the town and its members are everywhere received with open arras. Today their headquarters were resorted to by visiting Knights from all parts of the

country. THE NATIONAL GRANGE.

Meet in Sacramento on the 13th of November.

WASHINGTON, October 7th. - Secretary John Trimble of the National Grange, which meets in Sacramento, November 13th, in its twenty-third annual session, is here en route for there. Speaking of the growth of the order, he says: "It has increased more in the last two years than in the previous fifteen." Continuing, he said: "The year that ended on September 30th last was exceedingly prosperous. We established over two hundred new Granges and the increase in the receipts have been nearly 30 per cent. over the previous year. The order embraces a great many men how many I cannot tell. I was once quoted as saying that we had 2,500,000 members, but it was an error. If you will take that number and divide it by two and divide by the results several times, you might hori zontally reduce it so as to arrive at the approximate number. I could not come within 50,000 of it myself. We have organized 26,000 Granges in various States and Territories, and we take thirteen as the minimum number of each Grange That will give you an idea of our strength We organized a State Grange in the new State of Washington only two weeks ago. Mr. Trimble then charges that the Administration ignored the rights of the farmer and has done the farming community great injustice in placing a politician, who never was a farmer, at the head of the Department of Agriculture. In fact, he says, the President snubbed them by not appointed one of their members to the

AN ARGONAUT. What an Eastern Trip Recalls to the Memory of an Oregon Pioneer. WASHINGTON, October 7th .- A morning paper says : Sir Knight Thomas McFadden Patton, of Oregon Commandery No. 1, of Portland, Or., arrived in the city yesterday. He is one of the old-timers who struck across the great wilderness of the Northwest in 1850, and made his home where he lived surrounded by hostile Indians for a great many years, and knows the feeling o going to bed with his loaded musket by his "I left Chicago in 1850," he said to a California Associated Press reporter yesterday, "and started West with an ox team. It took me just six months and eighteen days to get to Dalles, Oregon, where I settled. It seemed strange to make the return trip in three days, as I did on my way to Washington. On our way West, our ox team stopped at the spot on which Omaha city is now located. We waited there three home. No reserve on property or goods. wasn't anything along the river there except Pawnee Indians in those days, and they were thicker than hairs on a dog, but it wouldn't have been a bad idea if I had stopped there. The entire townsite wasn't worth a bag of beans then. I almost feel as if I am dreaming when I think of the great territory I passed over nearly forty years ago, inhabited only by Indians, and now go over the same ground and find great cities and wealthy and prosperous

The regular meeting of the Board of City Trustees was held yesterday morning, Mayor Gregory, and Trustees McLaughlin and Wolf being present.

E. H. Williams, Chief Engineer of the Water Works, made his weekly report, showing that 43,234,250 gallons of water had been pumped. The Stevens engine was in operation 150 hours, and the Holly 101 hours.

Bids were opened for the grading of Seventeenth street, from Q to R. John Hughes was awarded the contract, he being the lowest bidder.

City Attorney Church, to whom the matter had been referred of preparing an ordinance whereby the Trustees might be empowered to call a special election, reported that the city would have to be redistricted before he could draw up an ordinance. No action was taken

R. W. Parker, Superintendent of the City Cemetery, reported as follows for the month of September: Number of deaths in the city, 31; still-born, 1; brought here for interment, 20; total number interred, 52; collected for sale of lots, \$244 75; permits \$50; exhumation permits, \$20; total, \$314 75. Chief of Police Lee reported that 319 arrests were made during September, 20 lodgers accommodated, and 1,840 meals furnished. The cash balance on hand Oc-

tober 1st was \$11 10. Phillip O'Neill, Poundmaster, made his September report as follows: Number of horses impounded, 11; cows, 13; goats, 1; dogs, 51; dogs redeemed, 25; cattle, 9; received for impounding said animals, \$56. The following communication was received from the City Board of Education through M. R. Beard, Superintendent of Public Schools:

Gentlemen: Your communication asking the City Board of Education to transfer to you the Seminary school property has been received. In reply, I have been directed to say that this Board has no right to divert school property from its legitimate use, and therefore declines

Trustee McLaughlin said he thought the Seminary building was not being used and ought to be turned over to the city. However, no action was taken, and the com-munication was placed on file.

B. McVey appeared before the Board and complained that the sewer on the west side of Twenty-second street, between O and P. was in a very bad condition and needed attention. The matter was referred to the

Street Commissioner. C. W. Hoitt presented a demand for \$300 to the Board, for damages sustained by him in consequence of the sewage canal running through his property near the pump,

on Eighth and Y streets. Trustee McLaughlin said he would be willing to vote to allow \$75 for the damage, and didn't believe that Mr. Hoitt was damaged to any greater extent than could be covered by that sum. He moved that the claim of \$300 be rejected, and that \$75 be

Trustee Wolf thought \$150 would not be too much to allow, but the Second Trustee wanted the rest of the Board to look at the property in question, and the matter of allowing damages was deferred until they should visit it in a body. The Board will then either allow a reasonable amount of

M. J. Smith asked permission to repair a oden sidewalk at 1015 Fourteenth street, and the matter was referred to the Street Sanitary and Building Inspector Starr reported the awnings in front of the follow-

ing property to be in bad condition: Nos. 409, 1211, 1127, 1129, 1125, 1123 and 909 Front street; 107, 131, 413, 227 and 211 J George Murray said he wished to say a few words to the Board before they should conclude to try and carry off the water

from the Seventeenth-street sewer in an 18-inch pipe. Four 18-inch pipes, he said, would not carry off the contents of the The Mayor said the sewer and pipe was

only intended to carry off sewage, and not surface water, but Mr. Murray claimed that the surface water could not be kept out of the sewer. The pipe would be large enough if it were only required to carry off

Mr. Murray's remarks were only in the way of a suggestion, and the Board concluded to look into the matter before the next meeting.
A bill of \$25 was presented by police

officer C. A. Rowland for arresting L. B. Smart about a week ago, for turning in a false alarm of fire. The bill was in accordance with a provision in the ordinance allowing a reward of \$25 for the arrest of any such person. The bill was not allowed, however, and was laid over for one week. On motion of Trustee McLaughlin, seconded by Trustee Wolf, Colonel James Mc-Nasser and J. Nottingham, property owners on the west side of Tenth street between L were cited to appear before the Board next Monday. It seems that each has constructed a stone walk in front of his property and each walk is on a different grade. One is nearly right, and the other is considerably out of the way. Neither one of the men is willing to change the grade, Trustee McLaughlin says, and the Board thought it best to have them explain at the

R. W. Parker, the Superintendent of the City Cemetery, made his quarterly report of the condition of the Cemetery, and also submitted the names of those persons in the delinquent list of lots. There were some thirty-five or forty in number. The sidewalk on Jstreet, between Second

and Third, from Crocker's store to Corbin's saloon, was ordered condemned. The streets in the blocks bounded by Ninth and Tenth, S and W streets were ordered opened.

The Mayor said there was considerable complaint about the manner in which the City Cemetery had been sprinkled of late. he desired to impose a penalty of \$10 on the driver of the wagon for deliberately flooding a part of the walk, when he had been instructed to put no water on that particular place. It was ordered that the street sprinkler be ordered to pay that

At the last meeting of the Board Mr. Carlaw appeared and stated that an extra charge of \$50 for a piece of ground he had bought in the City Cemetery had been asked of him before he could get a deed to the property. He had paid \$415 for the property, but a mistake in the charge had en made and it should have been \$465 He considered that he was not responsible the mistake, and ought to have a deed to the piece of ground without having to pay the \$50 extra. The matter was at that time laid over for a week.

Mr. Wilson, ex Superintendent of the Cemetery, explained that he sold the lot for \$415 to Mr. Carlaw, believing that an avenue was to be cut through it. The avenue was not made, and Mr. Carlaw is in so much property.

Trustee McLaughlin said the city ought

to have the \$50, no matter who paid it. At the suggestion of Mayor Gregory, Mr. Carlaw and Mr. Wilson were instructed to confer on the matter and endeavor to come

#### to an agreement. COUNTY AFFAIRS.

He declares that the girl had been without clothing for several days past and until, on Sunday, the 6th instant, the petitioner provided her therewith. The child, it is alleged, is forced to tend bar for Palladini and wife at their saloon, on L street, between Third and Fourth, and the petition argues that for these reasons it is necessary that the Court should appoint a guardian to properly care for the child and free her from her present oppressors.

They Are Made Higher by an Increase

in the State Levy. The tax levy for the forty-first fiscal year, as fixed by the Board of Supervisors yesterday, amounts to \$1 50 on the \$100. This is an increase of 25 cents over last year's levy, but it must not be charged to extravagance in county affairs. The truth is, the increase has been caused by the enormous appropriations made by the last Legisla-

The levy for this year, in this county, would have been \$1 26 on each \$100, as against \$1 25 last year, but the State Board of Equalization has increased the State tax 22 cents over last year, and the school tax 2 cents, making a total increase of 24 cents that the county is not responsible for. At San Jose this week the State Sportsmen's Association will hold its annual session. Besides the usual trap-shooting matches that take place during these meetings, there will be shot to-morrow a great inter-club match for a beautiful trophy offered by the Selby Company, and a sweepstake purse. Each club will be represented by five men, and each man will shoot at twenty birds. The entrance fee per club will be \$100. There will be probably \$1,000 in the stake, and the winning team will get fifty per cent. of the whole The only Sacramento club to be represented is the Pacific Sportsman's Club, and the team will be composed of J. DEFENDANT'S STORY.

ANDRW JACKSON WOODSON TESTIFIES IN HIS OWN BEHALF.

He Makes an Emphatic Denial of th Grave Charge Against Him. on His Direct Examination.

The case of the people vs. Andy Woodson, charged with criminal assault upon Edith Kern, a six-year-old child, some months ago, near Brighton, was resumed in Judge Van Fleet's Court yesterday. The defense examined a number of witnesses as to the character of Mrs. Kern and the defendant.

own defense. Witness testified that he is 30 years of age, and for the past six years has been a farm laborer. Was foreman of a Kern county ranch for some time, and has worked in Sonoma, Colusa, Sutter and Sacramento counties. In June last he was employed by a Mr. Browning, at Brighton Junction. The defendant then went on and gave an account of his movements on the day on which the assault is said to have been committed. He said the Kern children

asked to be taken out to the field to see the thrashing-machine, and their mother permitted him to take them to the field. Witness said that was about 4 o'clock in the afternoon. He went with the children to where the engine stood and conversed Witness wiped the blood off his chin and consoled him, and shortly after took the children to the house, as he was requested the machine. He denied having made any assault upon Edith Kern. That evening he was in Kern's place, after his return from Brighton, and gave them some court-plaster which he had bought for the boy's

and agreeable. The next morning he returned to the saloon and drank with Mr. Kern. There was a drunken man present—a common laboring man. Mr. and Mrs. Kern treated him cordially, and nothing was said about any assault upon the child. That after-noon witness beturned to the saloon and taken to the barn. Witness wrote a letter while there, which Mr. Kern addressed for Mr. and Mrs. Kern, and everything was pleasant. That was on Monday, and wit-Cordano states that he is a relative of the hild and that he is amply able and willing he returned, Mrs. Kern charged him with latter being called in told the story, as heretofore stated. The Kerns told him he had better settle the matter, and witness

evidence in Court would go further than Witness went away to his work, and returned again on Sunday, and was kindly received and drank with Mrs. Kern. Afterward the matter was again brought up, and Mrs. Kern told him that if he would settle the doctor's bill there would be nothing more said about it, and witness finally conhaving attempted to rob Mrs. Jensen, after sented to the proposal. Witness was at the chloroforming her, is well known in this saloon again on the following day, in comcity. He has been dropping in and out of had several drinks. The next day witness damages or else remove the drainage sewer has on several occasions been arrested for was making a fool of himself by talking drunkenness. When a young man he about the alleged assault, and witness rehad been doing the talking. Something further was said, and witness said he would go and see a lawyer and have the thing

settled.

The defendant occupied the stand during the remainder of the afternoon. On cross-examination he adhered closely to his direct testimony.

FOR CENTENNIAL YEAR.

Plan for a Pacific Coast Historical Ex hibition in the Year 1892. At a late meeting of the California Museum Association the idea was advanced that in the year 1892, when the whole country will be giving attention to the celebration of the 400th anniversary of the discovery of America, some effort should be made to have a Pacific Coast Historical Exhibit at the Capital of this State. It was thought that the same should be held in connection with the fair of the State Agricultural Society and continue several weeks; that the exhibition should be representative of the history of the whole Pacific coast from the earliest times to the present, in the exhibition of costumes, examples of early implements of industry, agriculture, art., etc., and of representative articles illustrative of the beginnings and the advance of civilization on the coast of the three Americas. A large committee was appointed to consider the matter and consult with the State Board of Agriculture. A sub-committee of that committee yesterday presented the matter to the Executive Committee of the State Board of Agriculture through David Lubin as Chairman. He outlined the proposition, pointed out the feasibility of such an ethnic exhibition, and announced now far the matter had progressed, and what financial guarantee it already had. The idea was to create a Board of Promotion from energetic citizens and make ready to carry out the plan, taking full two years to do so. He read a letter also from gentlemen in San Francisco suggesting hat the occasion would be a fine one for has never been held in the United States. It was stated that sufficient attention has bility of such a historic exhibition, in consection with the exposition of the State Agricultural Society. It was pointed out that it would be in line with action being taken in several States to have local cenennial exhibitions of various kinds. In

olding a great horse show, such a one as een given to the matter to prove the feasithat year the drift of travel will be to the nited States, and there should be induceent relating to the sentiment of the year o induce visitation to this coast, which is so rich in historic examples of the settlement of the western coast of the two contineats. He added that there were many rcible reasons why such an ethnic exhition should be held here, the ample ground space available for annexes as needed to the Pavilion, the location of the

uildings of the State Agricultural Society, The members of the State Board of Agculture present were favorably impressed with the presentation of the matter, and equested that the detailed plan be submited to the full Board on the 29th instant. hey added that certainly something out of common should be done in the year 892, and that a Board of Promotion, esentative of energy and business ability. to conduct such an affair would doubtless receive the encouragement of the Agricult-

Ford got on one of his periodical sprees on Sunday, and going to his home he demanded money from his wife. He threatened to kill her if she refused him, and became so abusive that Mrs. Ford and her child fled to her motherin-law's home. Ford followed them and ried to get in, but failing, he returned to his own home and commenced demolishing everything in the house. The address was both eloquent, of the Chautauqua Literary and Scientific

instructive and interesting. The speaker dwelt at length on the importance of the broad and inviting field of knowledge which the Circle had opened up to those who had been denied the advantage of a collegiate course. While affording facilities for the acquirement of useful knowledge regarding the literature and politics of the day, the Circle was also a potent factor in shaping the morals of its members. It is

not the product of any creed or denomina-tion—in fact, one of its most inviting features was that persons of all denomina-tions, and those not identified with any of them, met on common ground and exchanged views on all important subjects The Circle embraces a moral and intelectual atmosphere that is elevating to all that enter it. He urged that its members exert themselves to draw within this magic circle the young people who are drifting aimlessly on toward lives that have no promise of usefulness. Dr. Weller was followed by Rev. Dr. H. H. Rice, of Oakland (formerly of this city)

The defense then called the defendant, who also spoke enthusiastically of the aims Andrew Jackson Woodson, to testify in his and workings of the Chautauqua Circle, and of its rapid growth.

The contest is especially interesting as be-tween the best and fastest representatives of the George Wilkes and Almont branches of the great Hambletonian trotting family. It will be the first appearance of Belle Hamlin, the second fastest mare in the world by the record, on a track convenient to New York. She is generally regarded as the most complete combination of equipe beauty and trotting speed in the world, but her owner's notorious unwillingness to start her in a race of more than three heats has created a not unreasonable doubt as to her staying ability. As to her speed there can be no question. Her record of 2:10% made this season, sufficiently proves since no mare except the incomparable Belle Hamlin beat Harry Wilkes at Buf-

falo last August easily enough, but he is

Urjust Taxation.

It is unjust to tax the stomach with burdens that it cannot bear. Many silly people thus tyrannize that faithful servitor until it rebels and punishes them as they deserve. Dyspepsia is usually the child of gastronomic folly, but whether this or the natural associate of inherent feebleness from childhood, it is surely and pleasantly remediable with Hostetter's Stomach Bitters, the finest and most highly sanctioned gastric tonic in existence. As a result of the tone imparted to the stomach, and the increased activity of its digestive and asommend to the security-holders an issue of similative action, insured by the persistent use of this benign invigorant, general up the outstanding obligations, and an stamina is augmented, the nerves strengthissue of \$80,000,000 to \$90,000,000 worth of ened and tranquilized, and a tendency to insomnia and hypochondriasis defeated.

CLECTRICITY, THE WONDER OF THE AGE. LECTRICITY, THE WONDER OF THE AGE, roots the disease from its stronghold. It pentrates the secret ambush of disease and exterminates it, root and branch. It removes the wretched symptoms of loathsome maladies and averts their dreadful results. It relieves more agony and suffering than tongue can tell, as the following personal references will show:

What P. D. BURBANK, a resident of Sacramento for thirty-one years has to say about

mento for thirty-one years, has to say about DRS. DARRIN & QUINLAN: TO WHOM IT MAY CONCERN. For a number of years I have been troubled For a number of years I have been troubled with deafness; also, my stomach, bowels and kidneys were very much diseased. I consulted Drs. Darrin & Quinlan for relief. I have taken their Electro-Magnetic Treatment about one month. I consider myself in every respect radically cured, feeling better then I have for years, and cheerfully recommend the Ductors to the afflicted public.
